**ACCELERATING BUSINESS PERFORMANCE™**

## **FREQUENTLY ASKED QUESTIONS** **BBS Basics Training Package**

### **Does each participant need a kit?**

Participant materials are critical to the training experience and hold valuable material that participants will use when implementing the process once they are back in their work environment. It is also important to establish credibility with your participants. By providing each person with the tools they need to successfully implement the process, you will be contributing to their overall success. Additional kits can be ordered in any quantity and at any time on our web site ([www.aubreydaniels.com](http://www.aubreydaniels.com)). For more information, please contact us: [info@aubreydaniels.com](mailto:info@aubreydaniels.com).

### **Can I reproduce the participant kits on my own once I buy the training package?**

Due to the intellectual property shared by ADI in the Instructor and Participant Kits, it is against the law to reproduce any material contained in the training package. Please refer to the [Terms of Use](#) agreement for more information. ADI, does, however make it easy to purchase additional material in any quantity and at any time.

### **Do I have to use all of the training modules in the course?**

BBS Basics has been delivered to large and small organizations in a wide range of industries with great success. The program represents an integrated approach to workplace safety and works best when delivered in full, whether all at one time or in modules over time. Over the years, ADI has adjusted the course to make it as efficient as possible. What remains is the critical content your organization will need.

### **What if I buy the training package and then decide to participate in ADI's train-the-trainer course?**

No problem. If you find that you would like to be trained to deliver the course, you can sign up at any time. Given that you purchased the initial materials training package, you will only be charged for the training component.

### **Are there other support materials available?**

Yes. ADI offers a number of [safety surveys](#) that can be conducted in your organization: Behavior-based Safety Readiness, Safety Culture, and Safety Leadership Surveys. We also offer a [BBS Orientation Booklet](#), available in English, Spanish, and French.

### **How do I know this is what I need?**

Having worked in so many environments, we understand the challenges safety professionals and corporate trainers face. Please contact us directly if you would like to discuss whether or not this package is right for your needs.
